**WORLD LEADER
IN ROBOTIC
MOWING**
SINCE 1995

THE SMART WAY TO MOW

HOW IT WORKS!

BOUNDARY WIRE

GUIDE WIRE

RECHARGING

When it's time to recharge, the mower finds the charger by using one of three methods:

- Picking up a signal from the charging station antenna.
- Following the guide wire back to the charging station.
- Following the boundary wire until it's within reach of the home signal.

IRREGULAR MOVEMENT PATTERN

- No need for specific programming.
- Covers all parts even if lawn is complex and/or contains trees, flowerbeds, passages etc.
- Allows the grass to be cut from different directions creating a smooth carpet like surface.

MOWING CYCLE

- The concept is to keep the short grass short.
- Husqvarna Automower® finds the charging station automatically.
- Charges for approximately 60 minutes.
- Resumes mowing, day in and day out, rain or shine.

25 YEARS OF AUTOMOWER® INNOVATION

SINCE 1995

25 YEARS

OF UPGRADING YOUR EVERYDAY

We knew that we were on to something great when we started the robotic lawn mower market 25 years ago. Since 1995, when we launched the world's first robotic mower driven by solar panels, to the launch of our X-Line Automower® family with Automower® Connect to ensure you mow smarter in a connected world - we have helped our customers upgrade their everyday. As the world leader in robotic mowing, you can trust the Husqvarna Automower® to upgrade your lawn everyday!

+ LET OUR EXPERTS TAKE CARE OF YOU - FOLLOW OUR SIMPLE 3 STEP PROCESS

STEP 1

Choose the right Husqvarna Automower® for you through a professional consultation with your Husqvarna Elite Automower® Dealer.

STEP 2

Full installation service available from Husqvarna Elite Automower® Dealers** - you need not lift a finger. Ask in-store for details.

STEP 3

Start your Husqvarna Automower® and enjoy more free time and a high quality 'just cut' finish, every day.
